

## 5 Tips For Internet Safety

- 1 . Never ever tell anybody your email or password
- 2 . Tell an adult if you get problems on the internet
- 3 . Don't fall for fake prizes
- 4 . Don't post mean photos of someone
- 5 . Don't tell people your address

**Telling people your information is bad they could hack you and that could set a virus on your computer and it can find your ID**
