

# INTERNET SAFETY

## ❖ Don't share personal details

Keep things like your address, phone number, full name, school and date of birth private, and check what people can see in your privacy settings.

## ❖ Think before you post

Don't upload or share anything you wouldn't want your parents, carers, teachers or future employers seeing.

## ❖ Watch out for phishing and scams

Phishing is when someone tries to trick you into giving them information, like your password.

## ❖ Keep your device secure

Make sure that you're keeping your information and device secure.

## ❖ Never give out your password

You should never give out your password or log-in information. Make sure you pick strong, easy to remember passwords.
