

Friendship: Brighter Day

If you get any lower
is there someone around?
Are they taking you higher?
Are they bringing you down?

Everybody needs to realise
We'll be stronger if we're side by side.
One step behind you
I've got to find you
I'm gonna take you to a brighter day.
One step behind you
I've got to find you
I'm gonna take you to a brighter day.
A brighter day, a brighter day,
A brighter day, a brighter day,

Is there somebody praising
everything that you are?
Do they say you're amazing?
Do you know you're a star?

Everybody needs to realise
We'll be stronger if we're side by side.
One step behind you
I've got to find you
I'm gonna take you to a brighter day.
One step behind you
I've got to find you
I'm gonna take you to a brighter day.
A brighter day, a brighter day,
A brighter day, a brighter day,

Instrumental

One step behind you
I've got to find you
I'm gonna take you to a brighter day.
One step behind you
I've got to find you
I'm gonna take you to a brighter day.
A brighter day, a brighter day,
A brighter day, a brighter day,
