

Welcome back from the Headteacher - Mrs Hewitt

The children have had an amazing start to the term getting straight into their conservation projects linked with Chester Zoo. They are learning so much about local species which are endangered and how they can protect them. We have had bird feeders to bug houses and the children have learnt some fantastic facts along the way - ask them what they know! It is great to hear that so many of you managed to visit the zoo over the holidays.

It's also great to see so many families bringing their children school and being able to meet you face to face although we are still being very careful. Welcome to our new Reception and Nursery parents, we hope you are enjoying school so far and are feeling very welcome as part of our St George's family.

This is a very exciting start to a new year.

What did we get up to this week?

Year 5

Year 5 weeded the Eco garden area and planted some plants for the bees.

They especially like winter flowering heather.

Year 4

Year 4 decided to attract wildlife into the school grounds by making bird feeders.

These were all made from recycled materials and were great fun to make.

Dear God,

Thank you for all the things we have been able to do over the holidays. Thank you that we are back in school ready to start a new year with our friends and our teachers. Help us to appreciate everything that we have and to remember to say 'Thank you' every day.

Amen
