

# Year 5 Summer 2 2022 Learning Challenge

## Successful Learners

### Areas of Learning

**As Mathematicians** we will solve problems that involve fractions. We will order, compare and round decimals. We will understand percentages as fractions and decimals. We will study equivalent fractions, percentages and decimals.

**As Geographers** we will collect and analyse statistics and other information in order to draw clear conclusions about locations. We will identify and describe how the physical features affect the human activity within a location. We will name and locate the countries of South America and identify their main physical and human characteristics.

**In R.E** we will know that the Book of Acts records the actions of what happened after Pentecost. We will know that the early Christians were persecuted for over 300 years and had to show great courage and perseverance. We will know that St Paul is a significant person in the history of Christianity and why. We will be able to talk about what we have learnt and in what ways we have been inspired by our learning.

**As Artists** we will sculpt materials using a range of tools and finishing techniques. We will explain how an idea has developed over time. We will compare and comment on ideas/methods/approaches in our own and other's work.

## What Would Happen If We Lost Our Rainforests?

### Christian Values

This term in school we are exploring the value of **Wisdom**.

Wisdom- We will study the bible to find out about the importance of wisdom and then we will think how we can make wise choices in our everyday lives.

'Blessed are those who find wisdom, those who gain understanding' Proverbs 3:13

## Successful Learners

### Areas of Learning

**As writers** we will be studying different books and writing our own narrative from these as well as other genres. We will study author's skills and techniques and use this information to improve our own writing. We will focus on authorial intent and vocabulary choices as well as looking at how to create atmosphere through setting descriptions.

**As Readers** we will continue to read and discuss an increasingly wide range of fiction, poetry, plays, non-fiction and reference or text books and read books that are structured in different ways and read for a range of purposes. We will recommend books that we have read to our peers, giving reasons for our choices

**As scientists** we will explain that unsupported objects fall towards the Earth because of the force of gravity acting between the Earth and the falling object. We will identify the effects of air resistance, water resistance and friction, that act between moving surfaces. We will recognise that some mechanisms, including levers, pulleys and gears, allow a smaller force to have a greater effect.

## Building Learning Powers

We will be focusing on building **Resilience** and understanding the importance of skills like persevering with challenges without giving up, noticing patterns and being absorbed in the task. We will relate these skills to all the learning we are doing and learn the importance of being able to assess our own progress in these Building Learning Powers.

Dear Parents,

The children worked very hard last half term and did some amazing learning! They have been using their BLPs and growth mindset to help them to achieve this. We are very much looking forward to learning new things in our final half term in year 5.

### **Reading**

Your child has a reading book to take home as well as a book which is kept in school. Your child should be reading daily at home and recording it in their diaries. In school they will take part in daily reading sessions within their English lessons.

### **Homework**

Homework will be sent home on a Friday and is to be completed by the following Wednesday. This will link to work we have done in class but children may need your support. Remember also, reading, spellings and times tables need to be practiced regularly.

### **PE**

We will be doing PE on Wednesday and this session is with the sports coach. Please remember to keep your PE kit in school so that it is available for lessons. Also, could you please check that your child's PE kit has their names in all items to reduce the chance of loss. We still do PE lessons outside in winter so your child may wish to bring a warmer top or tracksuit bottoms to wear in these lessons too. Swimming lessons take place on Tuesdays so please ensure that your child has their swimming kits on this day.

Thank you for your support, please feel free to come and see me if ever you have any queries or concerns or you simply want to discuss your child's progress.
