

# Extra-curricular activities

We offer a range of after-school clubs, some run by our staff and others by professionals from outside clubs. All children are welcome to attend with parental permission.

Children with Special Educational Needs (SEN) are welcome to attend our after-school clubs, however this might, in some instances, only be possible with extra adult support.

Children in Year Six have the opportunity to experience various activities at a Residential Centre, this is encouraged for all children including those with SEN. In some instances, with discussions with parents, we may need to offer additional adult support.

Children in all classes experience visits to support learning throughout the school year, and every child will take part. There may be occasions where additional adult support is required to ensure children with SEN are included.
